COURSE TITLE: MANAGEMENT SKILLS ESSENTIALS®
TRAINING PROVIDER: MAVENSDOTLIVE

COURSE OBJECTIVE

Management Skills is the single most important managerial skill that separates a highly effective manager from the rest. The problem is, most managers don't understand how critical Management Skills is for the development, growth, and performance of their people. Because they don't know how to use Management Skills in their leadership style, their employees stay stuck on projects, becoming discouraged and demotivated. We know how frustrating it can be when your managers aren't developing their people as effectively as they could be. Your managers deserve training that will deepen their leadership skills, so they can better accelerate the development and performance of those they lead. Management Skills Essentials®, authored by Blanchard Master Certified Coaches, teaches managers how to use coach-like behaviors so that productivity goes up, teams are more unified, and the company performs better overall. Our program embraces the tried-and-true Management Skills competencies as defined by the International Management Skills Federation; our expert authors have spent more than 20 years mastering the language and practices that make these methods immediately useful.
